i. Which of the cars are on both the sides of the Cadillac?
A. Ambassador and Maruti B. Maruti and Fiat
C. Fargo and Mercedes D. Ambassador and Fargo

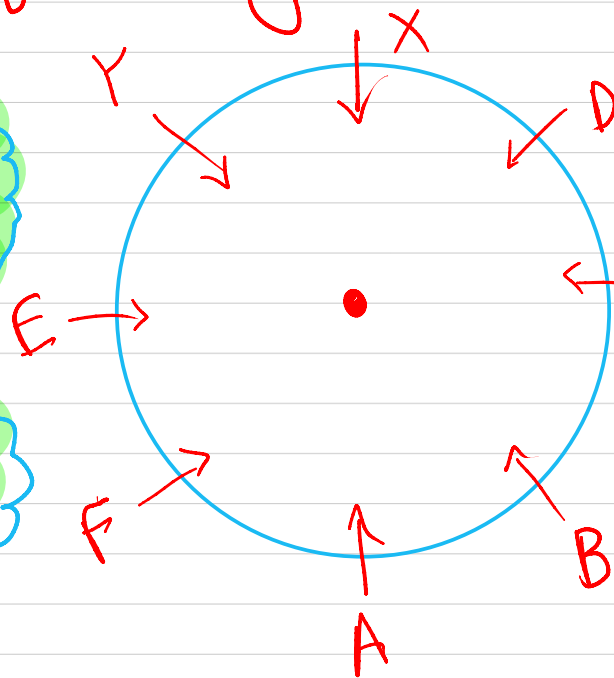

ii. Which of the following statements can be correct?
A. Maruti is next left of the Ambassador. B. Bedford is next left of Fiat.
C. Bedford is at one end. D. Fiat is second to the right of Maruti.

Fiat A/B Mar B/A Faw Cad Mere

Seating arrangement (Circular)

In circular arrangement, every body is facing towards the center.

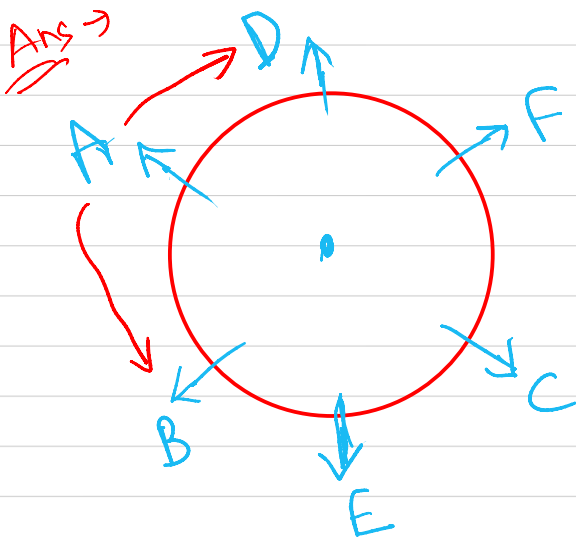

So, X's right is Y not D and so, on.

Also, always draw like this shown in the image. Top and bottom of them equally spread (if even). If odd do the same and remove any 1 line.

Q3. Six Friends A, B, C, D, E and F are sitting on a circular table facing outwards. E is between B and C. B and F are exactly opposite to each other. A is exactly to the right of B. Who are the neighbours of A?

- A. B and D B. B and E C. F and E D. F and C

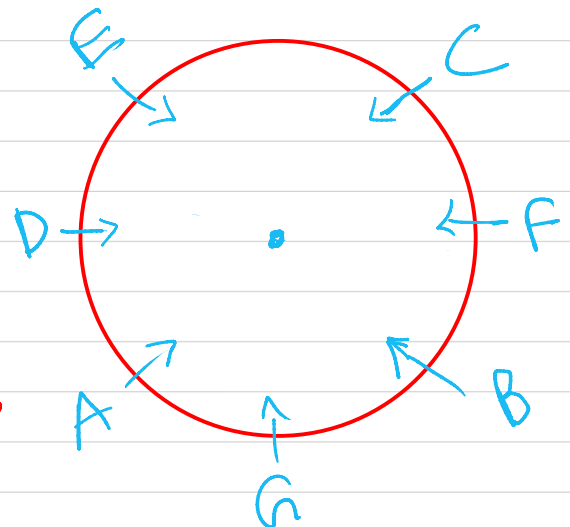

→ Specifically bola hai que me (outwards) to arrow andax nahi bahar ki taraf lagega.

Q4. A, B, C, D, E, F & G are sitting in a circular region and are playing cards. F is second to the right of G. B is the neighbour of F but not of C. E is a neighbour of C and is sitting fourth to the right of G. D is between E & A. Who is fourth to the left of G?

- A. D ☒ B. C C. E D. B

Ans. →

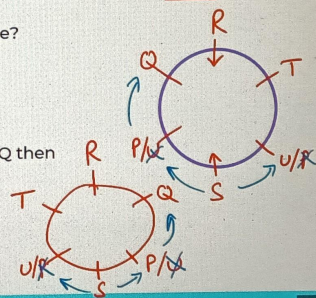

Q1. P, Q, R, S, T and U are standing in a circle talking, facing inward. T is next to R who is standing three places away from S. P is standing two seats away from U.

i. Which of the following has to be true?

- ☒ A. P is standing opposite to R
- ☒ B. P is standing next to T
- ☒ C. P is standing next to S
- ☒ D. P is standing next to Q

ii. If U does not want to stand next to Q then

- ☒ A. S will be next to T
- ☒ B. T has to be next to P
- ☒ C. S and T, both will be next to P
- ☒ D. Q has to be next to P

Q2. Six girls are sitting in a circle facing to the centre of the circle. They are P, Q, R, S, T and V. T is not the one between Q and S, but someone else is. P is next to the left of V. R is 4th to the right of P.

i. Which of the following statements is not true?

- ☒ A. S is just next to the right to R
- ☒ B. T is just next to the right of V
- ☒ C. R is second to the left of T
- ☒ D. P is second to the right of R

ii. If P and R interchange their positions then which of the following pairs will sit together?

- A. RT
- B. PV
- ☒ C. VR
- D. QV

iii. What is the position of T?

- ☒ A. Just next to the right of Q
- B. Second to the left of P
- ☒ C. To the immediate right of V
- D. Between Q and R
