

Ordering & Ranking

- 2nd from left. So, $n - 2 + 1$ from right
- 2nd from right. So, $n - 2 + 1$ from left.
- and if I'm at 50th position and there are 50 people on the left and 50 on the right then there are total 99 (n-1) and not 100 members.
- No. of people b/w A & B is $|A - B - 1|$ not $A - B$ only.

Q3. In a class of 90, where girls are twice that of boys. Neville ranked fourteenth from the top. If there are 10 girls ahead of Neville, how many boys are after him in rank?

A. 27 ☒ B. 26 C. 25 D. 16

s. Neville ahead of

$$\begin{array}{c} 90 \\ \swarrow \searrow \\ G \quad B \\ 2 \quad 1 \\ 60 \quad 30 \end{array}$$

$$\begin{array}{c} 13 \\ \swarrow \searrow \\ G \quad B \\ 10 \quad 3 \\ N \end{array}$$

$$30 - 3 - 1 = 26$$

Q5. P, Q, R, S and T are five girls competing in a running race. R and S have at least two girls ahead of each of them. T and P do not have more girls as well as before two other girls, if no two girls finish the race at the same time?

A. Q B. S C. T ☒ D. R

d P have at least 1

$$\begin{array}{c} \downarrow 1 \quad \text{---} \quad \text{---} \\ 2 \quad \text{---} \quad \text{---} \\ \rightarrow 3 \quad \underline{R/P} \\ \uparrow 4 \quad \underline{R/P} \quad \text{---} \\ 5 \quad \underline{R/P} \end{array}$$

$$\begin{array}{c} \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \end{array}$$

$$\begin{array}{c} \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \end{array}$$

$$\begin{array}{c} \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \\ \text{---} \end{array}$$

Q8. Four companies-W, X, Y and Z declared their results for the financial year. No two have either the same income or the same profit.

- The income of company W is greater than that of X and its profit is less than that of company Y.
- The income as well as the profit of company Y is greater than that of company Z.
- The company X has the third highest income and its profit is less than that of company Z.
- Profit of company X is not as much as that of company W.

1. Which company has the highest income?
A. W B. X ☒ C. Y D. Either (A) or (C)

2. Which company is the second highest in profit?
A. W B. X ☒ C. Y D. Can't be determined

3. Which company has the least income?
A. W B. X ☒ C. Z D. Y

$$\begin{array}{c} \text{I} \quad \text{P} \\ \text{Y} \quad \text{W} \quad \text{Y/W} \quad \text{Y} \\ \text{Z} \quad \text{X} \quad \text{W/Y} \quad \text{W/Z} \quad \text{Y} \\ \quad \quad \text{X} \quad \text{Z/W} \quad \text{W/Z} \\ \quad \quad \text{Z} \quad \text{X} \end{array}$$

4. How many companies have more profit than company X?

A. One B. Two ☒ C. Three D. Either (A) or (B)

5. If no company has same position in profit and income which company has the second highest income?

A. W B. X ☒ C. Y D. Can't be determined

$$\begin{array}{c} \text{I} \quad \text{P} \\ \text{X/W} \quad \text{Y} \\ \text{W/Y} \quad \text{W/Z} \\ \text{X} \quad \text{Z/W} \\ \text{Z} \quad \text{X} \end{array}$$
